SITUATION UPDATE – AID CHALLENGES

The humanitarian situation in Gaza remains catastrophic. Around 1.7 million people shelter in 1,600 overcrowded displacement sites, facing flooding, vermin, and limited water, sanitation, and cooking fuel. Acute food insecurity affects 1.6 million people, and only 42% of health facilities function. We're delivering food, clean water, emergency shelter, and critical aid, protecting lives and sustaining hope for Gaza's most vulnerable families.
